

DEFENSE REPORT WRITER

Produce Highly Accurate Counter-Terrorism, Intelligence and Security Reports without Typing

Crown International's Defense Report Writer is an extremely accurate speech enabled report writer that utilizes our proprietary new Voice Automated Defense Vocabulary along with either IBM ViaVoice for Windows release 10, Pro USB or with Dragon NaturallySpeaking Professional 8

With either Speech Recognition engine, your field agents or office staff dictate their reports into a headset connected to a PC in their normal relaxed tone of voice. They include any needed punctuation. Then the text almost instantly appears on the screen of the PC with no misspelled words. Naturally, they must pronounce the words clearly for best accuracy. They then check the work for any mis-recognized words, correct any factual errors and then print the finished report. Defense Report Writer is only available for U.S. English, but many foreign and most strong regional US, Canadian & UK accents are easily learned by the system.

Use Defense Report Writer for ...

- Counter-Terrorism Reports
- Intelligence Reports
- Security Reports
- Law Enforcement Reports
- Any Other Written Reports

Defense report writer is capable of producing written reports with an accuracy of up to 99% in the hands of a trained user. Users can dictate as fast as they can speak clearly, 150 or more Words Per Minute is possible. This is much faster and more accurate than most people can type.

The Defense Report Writer Vocabulary consists of the existing Voice Automated Law-Enforcement Vocabulary which was first compiled with report data from the California Highway Patrol and the Los Angeles Police Department.

We then added thousands of words extracted from world-wide news reports, Government non-classified & commercial web sites and other published documents containing the names of terrorists, terrorist organizations, foreign locations, United States and foreign conventional and W.M.D. weapons terminology are included.

We offer a full range of Training, Customization and Support Options to enhance the usefulness of our Defense Report Writer. These include ...

- Our Training Manual, an Electronic Book on CD called "How to Master Defense Writer" (for IBM Only) is a complete training course in Adobe Acrobat (PDF) format.
- We can customize this training Manual for individual agencies to include Support Options, etc.
- On site training can be provided. This would be in the form of "Train your Trainer" sessions most of the time.
- Telephone or E-Mail support can be provided on the Defense Report Writer.
- We can customize The Defense Vocabulary for the client agency (i.e. CIA version, FBI version, Army version, etc.)
- To keep this Vocabulary up-to-date as world conditions and suspects change, we can update it as often as needed with data supplied by us or the client agency.
- User added words are automatically learned by the system.

We can provide custom voice enabled templates so that your agency reports look uniform and professional.

Federal, State & Local Volume Licensing Agreement (VLA) prices are available. Call for details.
